-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 10/191,847, filed on 09-JUL-2002.

Information Disclosure Statement

The information disclosure statement filed 18-NOV-2003 complies with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609. Accordingly, it has been placed in the application file and the information referred to therein has been considered as to the merits.

Claim Objections

Claims 1-2 are objected to because of the following informalities: Claim 1 recites the term "abase" which appears to be a typo and should be -- a base --. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, claim 1 recites a step of "extruding a male strip and a female strip forming a mating section together respectively onto a surface of the base tape". This limitation is indefinite because it cannot be clearly ascertained if the male and female strips are extruded "together" on a single base tape or rather "respectively" with each on its own base tape.

Claim 2 recites the limitation "the extrusion molding machines". There is insufficient antecedent basis for this limitation in the claim.

Claim 2 recites the limitation "the male strips and female strips". There is insufficient antecedent basis for this limitation in the claim. Furthermore, claim 2 is indefinite because it cannot be clearly ascertained if a single male or female strip is produced, as recited in claim 1, or if claim 2 is intended to produce multiple male strips and multiple female strips.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1732

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Kamp (US Pat. 4,428,788).

Regarding claims 1-2: Kamp teaches the claimed process of forming a zipper tape for a bag comprising: feeding/providing a base tape (Figs. 1-3, element 13); extruding male and female strips onto a base tape (Figs. 1-2, elements 13-16, see also Fig. 3, element 15 and 15'); and thermally fusing/bonding sections of the male and female strips to the base tape (3:35-40 and Fig. 3). Kamp further teaches that various components of the assembly or closure may have different colors (5:30-45).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached PTO-892.
